

Matias Haldmeyer

UI/UX DESIGNER

Buenos Aires, Argentina • haldmeyer@gmail.com • [linkedin.com/in/haldmeyer](https://www.linkedin.com/in/haldmeyer) • hellmeyer.github.io

SUMMARY

I'm a designer based in Buenos Aires, Argentina, with a pull toward interface work over pure research, though I take methodology seriously and let it guide my decisions. I care about building accessible, user-first experiences — I've worked across a range of digital products, but games are where I do my favorite work. Off the clock, I'm playing guitar or working through my game backlog.

SKILLS & TOOLS

UI Design · User Experience · Design Systems

Figma · Photoshop · Illustrator · After Effects · DaVinci Resolve · Blender · Unreal Engine 5 · GameMaker

LANGUAGES

Spanish (Native) · English (Professional Working)

EXPERIENCE

Big Time Studios — UX Designer

Mar 2021 – Jun 2026

Buenos Aires Province, Argentina

Coordinated with the game team to design UI solutions based on UX insights from iterative playtesting. Developed high-fidelity mockups in Figma and integrated approved designs directly into Unreal Engine. Shipped the full UI system for Big Time (HUD, inventory, progression, quests, crafting, world customization) and the systems layer for Pet Time (collection, farming, fishing, incubation, shop).

Avantrip.com — UI/UX Designer

Jun 2016 – Mar 2021

Worked closely with product owners, analysts, and developers to deliver an attractive, modern, and efficient product. Ran component-by-component studies (cards, headers, search boxes) that fed into a full homepage redesign.

DE AUTOS SA (Agea Digital / Grupo Clarín) — UI Designer

Jul 2014 – May 2016

Owned UI/UX for Deautos.com, a vehicle marketplace, and its supporting digital assets — including a touchscreen catalog for a trade-show totem and a car comparison tool — driving a more modern, streamlined brand image.

InfinixSoft — Art Director

Nov 2013 – Jun 2014

Morón, Argentina

Led a team of three designing mobile and web apps for startups and large companies, including an interactive children's book app with narrated pages and educational minigames.

EARLIER EXPERIENCE

Batanga Media — Art Director (2011–2013). Led a team of three designing web and mobile apps for an online radio platform serving Hispanic-American audiences.

Agencia Butan — Senior Digital Designer (2010–2011). Web and ad campaigns for clients including DHL (LatAm & Caribbean) and Frávega.

SmartVision — Creative / Art Director (2009–2010). Concept-to-visual creative work for clients including Givenchy and Scania.

United Virtualities — Media Designer / Flash Developer (2007–2009).

Marketing Plus — Web Designer & Graphic Designer (2007). Web layouts for clients including the MNAD museum and Gas Natural.

Empresas Carozzi S.A. — Intranet Webmaster (2005–2007). Rebuilt the company intranet from the ground up.

elDogma Interactive — Junior Web Designer (2005).

PERSONAL PROJECTS

Limpia Vidrio — Arcade Puzzle Game

2026

An arcade game built solo in GameMaker with AI-assisted development. Follow a squeegee man searching for his missing dog across multiple worlds. The core gameplay loop centers on cleaning cars while dodging hazards, collecting cash, and grabbing power-ups.

EDUCATION

Nueva Escuela de Arte y Diseño — Graphic & Digital Design
